EDUCATION

College of Engineering, Chengannur

October 2022 - April 2026

Affiliated to APJ Abdul Kalam Technological University, Kerala

B.Tech in Electronics and Communication Engineering (CGPA: 7.55)

CERTIFICATIONS

- Embedded System Design using C Programming – Maven Silicon July 2025
- System Design Through Verilog – NPTEL September 2025
- Linux for Beginners – Packt February 2026
- CompTIA Linux+ (XK0-005) Unit 4 – Pearson February 2026

PROJECTS

NEOCARE (MAIN PROJECT - ONGOING)

- Designing a bladeless fan integrating Raspberry Pi for baby motion detection.
- Currently implementing real-time image processing and Wi-Fi notification alerts.
- Developing a dual-purpose system to provide airflow and remote safety monitoring.

Dog Repellent Device Using Ultrasonic Waves and Scent Diffuser (MINI PROJECT)

- Built ultrasonic dog repellent using 555 timer (astable mode) for square wave generation.
- Integrated motor-actuated scent diffuser for dual-mode deterrence.
- Gained hands-on skills in circuit design, actuator control, and system integration.

One Digit BCD Subtractor using Mini FPGA

- Designed a 1-digit BCD subtractor using Verilog HDL and tested on Mini FPGA.
- Implemented gate-level full adders and 1's complement logic for subtraction.
- Gained practical skills in FPGA testing, modular design, and digital arithmetic.

INTERNSHIPS

Robotics with Artificial Intelligence

July 2024

Genzee Technologies LLP

- Completed a virtual internship on Robotics with Artificial Intelligence at Genzee Technologies.
- Gained deeper understanding of robotics and AI, including programming techniques for intelligent robotic systems.

TECHNICAL STRENGTHS

Skills	Embedded Systems, FPGA Design, Circuit Design, LaTeX
Programming	Python, C, Verilog

VOLUNTEERING EXPERIENCE

Placement Coordinator, Training and Placement Cell CEC

2024 - 2026

- Coordinated 25+ campus recruitment drives, ensuring smooth end-to-end execution.
- Acted as liaison between students and recruiters for all placement activities.

Secretary, IEEE SPS SBC CEC

2025 - 2026

- Managed all documentation and report submissions, ensuring timely and accurate records of chapter activities.
- Supported event planning, internal communication, and coordination, contributing to smooth chapter operations and member engagement.

Vice Chairperson, IEEE SPS SBC CEC

2024 - 2025

- Coordinated 5+ technical and outreach events as Vice Chair, handling logistics, speaker coordination, and participant engagement.
- Involved in volunteering, networking, and event management, contributing to chapter growth and professional collaboration.
